FMCS Water Heater Program to Change

Beginning April 21, 2009, our water heater program will change. We will no longer sell Marathon water heaters. Instead, members will purchase an 85 or 105 gallon Marathon water heater through one of the participating dealers listed below. Once the water heater has been put on load control, we will rebate the member \$275.00.

Here are some program notes ...

- Participating dealers are Geno's Plumbing, Master Plumbing, and Harty Mechanical in Austin.
- The dealers will give the members a load control agreement when they purchase a water heater.
- The members will need to send FMCS the signed agreement and a copy of the invoice/receipt showing the 85/105 gallon Marathon water heater on it.
- The dealers will contact FMCS when the wiring is ready on the outside of the house for Gene to install load control.
- We will continue to sell Marathon water heaters through April 20, 2009.
