Disk Space: 200 MB free space	System Memory: 128 mb
RAM: 512 FOR Vista	Internet Connection: Broadband or Dial-up Internet

Questions and Answers:

Q. Is there an activation fee?

A. Yes, \$4.00

Q. Are there any other charges that apply with SecureIT?

A. If a customer chooses the Supported Remote Installation there is an additional charge of \$14.95.

Q. Can SecureIT services be used on more than one computer?

A. The SecureIT product can be installed on up to 3 PC's using the same license code. SecureIT Plus licenses are valid only for a single PC. If a person would like additional SecureIT Plus licenses they may purchase them at a discount.

Q. Is a customer required to have WCTA or FMCS as their Internet provider to use SecureIT?

A. No, anyone can use the service, even if they have another Internet provider.

Q. What about technical support?

A. The only support option for SecureIT users is online forums. SecureIT Plus includes 24/7 support. The easiest way to obtain support is through the program itself. Security Coverage also has a support website:

<http://products.securitycoverage.com/guides/secureit/features.html>

Q. What is the SecureIT Plus Guarantee:

A. The SecureIT Plus Guarantee allows up to \$100 to correct a Security related issue if Security Coverage cannot fix it. The Guarantee applies to SecureIT Plus and only if the Supported Remote Installation is chosen. The Guarantee is provided by Security Coverage not FMCS.
